

FOLIO

THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON, ALBERTA

AUGUST 3, 1972

The old Sociology hut next to the Structural Engineering Laboratory has, in a way, been given a new lease on life. Students in the Department of Art and Design have used materials from the demolished hut to create a geodesic dome for Trash City, an Opportunities for Youth project.

PROGRAM PIONEERED ON CAMPUS HAS HAD NATIONAL INFLUENCE

Eleven years ago the Dean of Medicine went to the President of the University and proposed something that had long been ignored by medical researchers. What WALTER C. MACKENZIE wanted and WALTER JONES actively supported was, in essence, that the University hire an expert to oversee the care and treatment of all animals being used by staff in research projects.

To direct the Medical Vivarium (now called the Health Sciences Animal Centre) they appointed DAVID C. SECORD, who holds Doctor of Veterinary Medicine and Master of Veterinary Science degrees from the University of Toronto. That was in 1961, the year The University of Alberta became the first university in Canada to institute such a program. Since then, the University's system has served as a model for other institutions across Canada, and last week it was detailed by Dr. Secord before a review board of the United States Department of Agriculture, which is presently reviewing and revising U.S.

regulations concerning animals used for scientific research.

Dr. Secord, who is also an Associate Professor of Surgery here, was invited to testify on behalf of the Animal Welfare Institute, an international organization which has long been active in ensuring the humane treatment of research animals. In his speech to the review board, he argued in favor of mandatory daily exercise for caged dogs, a provision that does not exist in present U.S. legislation. He pointed out that confining a dog to a cage, without exercise, is "contrary to everything I believe as a humanitarian, contrary to all my training as a veterinarian, and in direct opposition to the fundamentals of basic research of a research scientist."

In Alberta, dogs may be bred specifically for research or obtained only from the dog pound, after allowing owners a reasonable length of time to claim them. Provincial legislation stipulates the type of care and use of all research animals, including mandatory daily exercise for all caged dogs; it also provides for periodic, unannounced inspection of animal facilities by government officials.

BOOKS

River Ecology and Man, recently published by the Academic Press in its Environmental Sciences, Interdisciplinary Monograph Series, has a chapter on "Morphometric Changes" by THOMAS BLENCH, Emeritus Professor of Civil Engineering. It also includes an illustration from *Death of a Delta*, which was published by the Water Resources Centre at this University in 1970.

PEOPLE

■ JOHN CHAMBERS, Canadian artist, is the 1972 recipient of The University of Alberta's National Award in Painting and Related Arts.

■ THOMAS BLENCH, Emeritus Professor of Civil Engineering, has received a travel grant from the National Research Council which will enable him to present a paper at the International Association for Hydraulic Research's Symposium on River Mechanics to be held at Bangkok in January, 1973.

NOTICES

EXTENSION COURSES

There are still some vacancies in a course in painting and sketching being offered by the Department of Extension at Buck Lake, August 24 through 27. Participants are expected to supply their own transportation, camping equipment, food, and drawing and painting materials. Daily field trips will be arranged from the campsite. The course will include instruction in landscape painting and sketching. The instructor is ROBERT CARMICHAEL. The fee for the course is \$35 and registrations are now being accepted at room 228 Corbett Hall, or call 439-2021.

The Department of Extension is also sponsoring a second geological field trip to the Drumheller badlands, Cypress Hills, and Milk River September 1 through 4, the Labor Day long weekend. Led by L. A. BAYROCK and JOHN GODFREY, both geologists with the Alberta Research Council, participants will be taken along the Dinosaur Trail to the Cypress Hills Provincial Park and the Milk River Canyon.

There are no prerequisites for the trip. Persons with very little or no knowledge of geology will find this trip interesting and informative. An orientation session prior to the trip will provide useful background for the

study of the rocks and landscapes that will be seen.

The registration deadline is August 18 and the fee is \$85, which includes tuition, materials, accommodation, breakfasts and bag lunches, and transportation.

For further information, call 439-2021.

FACULTY MEMBERS NEEDED FOR STUDIES

The General Faculties Council Committee to Investigate Teaching will be continuing two of its studies during the 1972-73 academic year.

The Pass/Fail grading system will again be studied experimentally as an alternative to stanine grades. The committee will also continue to study the effect of an alternate teaching facility. The experimental classroom, room 289, Central Academic Building, will again be available for use by interested faculty members.

The committee is interested in knowing if members of the faculty will be interested in participating in either or both of these studies. Those interested are requested to obtain further information from DAVID OTTO at 432-5297.

THIS WEEK AND NEXT

Listings must reach the Editor by 9 a.m. the Friday prior to publication. Written notification is preferred. Compiled by NORMA GUTTERIDGE, 432-4991.

3 AUGUST, THURSDAY

MEETA University Television Series—'Hey! What's Going on There?'

8 p.m. "Human Genetics" with PETER BOWEN, Professor of Paediatrics. Channel 11.

4 AUGUST, FRIDAY

MEETA Television Series—'The Toy That Grew Up'
8 p.m. "Cops, comics, and girls" part II. The second of two programs devoted to the films of Mack Sennett (1913-1928). *Versatile Villain* with Louise Fazenda and Charley Chase; *Danger Girl* with Gloria Swanson, and *Run, Girl, Run* with Carole Lombard. Channel 11.

7 AUGUST, MONDAY

Dimensions of Man and God—Summer Session Films
7:30 p.m. *Cool Hand Luke*. The infrangibility of personhood is a theme raised by this film. Is Luke a culturally-contaminated Christ figure? SUB Theatre. Admission 50 cents in advance, 75 cents at the door.

11 AUGUST, FRIDAY

MEETA Television Series—'The Toy That Grew Up'
8 p.m. Two early films of D. W. Griffith—a two reeler, *The Lonedale Operator*, and his

first feature-length production, *Judith of Bethulia*. Channel 11.
